Advantages

- High precision & T90 response time
- Extended service life
- Cost Effective
- Single source supplier for all ventilators
- Most orders shipped within 1-business day

Ventilators Plus has been a leader in respiratory equipment service and replacement parts for over 23 years. We provide a full line of both original factory and replacement oxygen sensors for ventilators and oxygen analyzers, accompanied with the best warranty in the industry. To insure the highest quality and product availability, our sensors are designed and manufactured here in Southern California according to ISO 9001:2008 and ISO 13485:2003 standards.
