Oxygen Blenders

- Single Source of Multi-Vendor Service
- Experienced Respiratory Specialists
- 35% Average Cost Savings
- Thousands of Parts in Inventory
- Local Service Center
- 100% Satisfaction Guarantee

Ventilators Plus provides quality on-site technical support for the respiratory healthcare industry. We are an independent service and repair center specializing in only one modality; Respiratory Ventilators. This life support equipment, that is so critical to the health and well being of your patients, must always operate at peak efficiency.

As a well known ventilator service center in Southern California, we have been serving for more than a decade and have hundreds of satisfied customers. We have highly trained and leading technicians in Southern California who have made ventilator servicing easy and with pride. Our repair center offers full repair and overhaul capabilities from basic cosmetic and component replacement to complete overhauls and board level repairs.

Whether we handle a single ventilator or an entire ventilator fleet, our biomedical service programs:

- Satisfy Joint Commission, ECRI, AAMI and other regulatory agencies.
- Supplement your Biomed staff, reduce training costs, labor and specialized test equipment.
- Thoroughly servicing and inspecting ventilators, resulting in reduced equipment downtime and equipment replacement costs

Multi-Vendor Benefits and Savings

TECHNICAL SUPPORT

Our experienced technicians and state-of-the-art specialized test equipment, assures your ventilators are tested at the most up-to-date OEM specifications.

PARTS

Our service center maintains thousands of parts in inventory to reduce down time and eliminate the need of rental equipment.

DEPOT

Our local service center, large parts inventory and available equipment pickup and delivery services, allow us to turnaround equipment in a matter of days not weeks.

MULTI-VENDOR

Hospitals typically own 3 different brands of ventilators. When it's time for scheduled maintenance or repairs, it can be time-consuming, complex and dealing with multiple suppliers and service agreements. With Ventilators Plus, all brands can be maintained from a single trusted source and to assure your ventilators are serviced in a timely manner. We work with your current in-house biomedical technician on annual PM schedules to insure that all departments have the proper maintenance documentation and all follow-up services have been completed to satisfy Joint Commission or other regulatory agencies.

SAVINGS

With the increased pressure on every business in today's economy to streamline operations and reduce costs, our maintenance programs are designed to do just that. Our sourcing of manufacturer-approved parts, service and support capabilities allow us to provide our customers with an overall substantial cost savings averaging 25%.
